

## Scope of American Society for Microbiology Online Journals

ASM journals provide your faculty, staff, students, and researchers access to the most comprehensive, authoritative microbial sciences resources.

Written and reviewed by world-renowned authors and editors, our journals cover 10 distinct topic areas:

- Applied and Industrial Microbiology
- Bacterial Pathogenesis
- Clinical Microbiology
- Environmental Microbiology
- Food Microbiology
- Fungi and Fungal Pathogenesis
- Immunology
- Microbial Genetics and Molecular Biology
- Viruses and Viral Pathogenesis
- Microbiomes

## ASM Journals Online Features

ASM institutional subscriptions provide your users with access to peer-reviewed research, cutting-edge information, and key resources as well as a high-class online experience designed to help you analyze your library's ROI and provide excellent services to your researchers and authors. ASM is dedicated to helping you, and your patrons, make the most of your online content.

**ASM has over a million authors and editors from institutions like yours—ask us for a list of your patrons who have published with us!**

ASM Journals <a href="https://journals.asm.org">https://journals.asm.org</a>	
<b>Convenient Library Admin Tools</b>	
<ul style="list-style-type: none"> <li>• IP, Shibboleth, Athens and public username/password authentication</li> <li>• COUNTER 5 compliant reporting</li> <li>• Content distribution through SiPX</li> <li>• Institutional logos for onsite co-branding</li> <li>• RightsLink for content reuse</li> </ul>	
<b>Innovative Tools for Researchers &amp; Authors</b>	
<ul style="list-style-type: none"> <li>• Article-level metrics</li> <li>• Kudos promotion tools</li> <li>• Peer-review recognition through Publons</li> <li>• ORCID identifiers published in manuscripts</li> <li>• Journals' Ethics Portal</li> <li>• Personalization to save searches and set up alerts</li> </ul>	

## About ASM

ASM is a nonprofit society that has served international scientific professionals in the microbial sciences for more than 90 years. ASM delivers excellence and value to your institution through its scholarly journals.

## Journals Pricing

Maximize your library's collection by selecting from our Inclusive Online, Basic, and Clinical packages. An online institutional subscription provides users and librarians with immediate access to newly accepted manuscripts published up to 3 months before final publication.

### Institutional Subscription Rates 2020

#### Institutional Online Subscriptions

Journal Title	ISSN	Price A: 1-200 Life Science Users	Price B: 201-1500 Life Science Users	Price C: 1,501-3,500 Life Science Users
Inclusive Online Package		\$6,380	\$10,497	\$13,643
Basic Package		\$5,083	\$8,304	\$10,777
Clinical Package		\$4,988	\$8,149	\$10,575
Antimicrobial Agents and Chemotherapy	1098-6596	\$963	\$1,251	\$1,628
Applied and Environmental Microbiology	1098-5336	\$1,446	\$1,877	\$2,444
Clinical Microbiology Reviews	1098-6618	\$860	\$1,119	\$1,453
EcoSal Plus	2324-6200	\$1,209	\$1,571	\$1,934
Infection and Immunity	1098-5522	\$1,033	\$1,342	\$1,744
Journal of Bacteriology	1098-5530	\$1,651	\$2,147	\$2,790
Journal of Clinical Microbiology	1098-660X	\$895	\$1,164	\$1,512
Journal of Microbiology & Biology Education	1935-7885	Open Access	Open Access	Open Access
Journal of Virology	1098-5514	\$2,065	\$2,683	\$3,488
mBio	2150-7511	Open Access	Open Access	Open Access

Microbiology Spectrum	2165-0497	\$846	\$1,209	\$1,571
Molecular and Cellular Biology	1098-5549	\$1,790	\$2,326	\$3,022
mSphere	2379-5042	Open Access	Open Access	Open Access
mSystems	2379-5077	Open Access	Open Access	Open Access

#### Institutional Journal Tiers

Tier	Life Science Users
A	1-200
B	201-1,500
C	1,501-3,500
Negotiated Rate	> 3,500

#### Life Sciences Definition

**Academic:** Faculty plus individuals in registered doctoral programs and postdoctoral programs in microbiology related fields.

**Corporate & Government:** Non-administrative staff & marketing product managers involved with microbiology related research.

For a full definition, please visit <https://journals.asm.org/content/institutional-subscription-faqs> or ask your ASM representative.

From the Premier Publisher of

# Online Journals in the Microbial Sciences

AMERICAN  
SOCIETY FOR  
MICROBIOLOGY

Journals.ASM.org

# ASM Journals By the Numbers

ASM Journals publish over **17%** of all articles in Microbiology, while accounting for **44%** of all Microbiology citations

ASM publishes the **3** most highly cited journals in Microbiology [AAC, AEM and JB]

ASM publishes the **top-cited journals** in Pharmacology and Pharmacy [AAC] and Virology [JVI]

ASM publishes the **#1** journal ranked by Eigenfactor® in Pharmacology and Pharmacy [AAC]

## Media Highlights

ASM publications continue to receive significant press coverage from national and international media outlets reaching a diverse community of science journalists, educators, and students. ASM subscriptions provide your patrons this reputable content directly through your library.

**Inclusive Online Package Includes:** *Antimicrobial Agents and Chemotherapy, Applied and Environmental Microbiology, Clinical Microbiology Reviews, Ecosal Plus, Infection and Immunity, Journal of Bacteriology, Journal of Clinical Microbiology, Journal of Microbiology & Biology Education, Journal of Virology, Microbiology and Molecular Biology Reviews, Microbiology Spectrum, Molecular and Cellular Biology, mBio, Microbiology Resource Announcements, mSphere* and *mSystems*.

**Basic Package Includes:** *Applied and Environmental Microbiology, Infection and Immunity, Journal of Bacteriology, Journal of Virology, Microbiology and Molecular Biology Reviews, Microbiology Spectrum, Molecular and Cellular Biology* and *mBio*, with no journal substitutions.

**Clinical Package Includes:** *Antimicrobial Agents and Chemotherapy, Clinical Microbiology Reviews, Infection and Immunity, Journal of Clinical Microbiology, Journal of Virology* and *mBio*, with no journal substitutions.

All packages include access to *Microbiology Resource Announcements, mBio, mSphere, mSystems* and *Journal of Microbiology & Biology Education*.

\* *Microbiology Resource Announcements* began as *Genome Announcements* and was published with this title through July 2018 (Volumes 6). The online ISSN for *Genome Announcements* is 2169-8287.

# Maximize Value for Your Library Keeping Your Patrons at the Forefront of Microbial Science

Maximize your library's collection by selecting from our Inclusive Online, Basic, and Clinical packages. An online institutional subscription provides users and librarians with immediate access to newly accepted manuscripts published up to 3 months before final publication. See which journals are best for your library!

## Research Journals

**Antimicrobial Agents and Chemotherapy® (AAC)**  
mechanisms and therapeutics of antibacterial, antifungal, antiviral, and antiparasitic agents

Editor in Chief  
Louis B. Rice  
Brown University

ISSN: 1098-6596

**Key Stats**

> 2.2M Downloads

> 65K Citations

Journal Impact Factor (JIF): 4.715

**Applied and Environmental Microbiology® (AEM)**  
applied microbiology (biotechnology, protein engineering, bioremediation, and food microbiology), microbial ecology (environmental, organismic, and genomic), interdisciplinary microbiology (of invertebrates, plants, aquatic species), and geomicrobiology (interactions of microbes and soil, sediment, the atmosphere, the hydrosphere, minerals, and rocks)

Editor in Chief  
Harold L. Drake  
University of Bayreuth

ISSN: 1098-5336

**Key Stats**

> 3.4M Downloads

> 105K Citations

JIF: 4.077

**Infection and Immunity® (IAI)**  
mechanisms of interactions between bacteria, fungi, and parasites and their hosts, including molecular pathogenesis, virulence factors, cellular microbiology, experimental models of infection, host resistance or susceptibility, and innate and adaptive immune responses

Editor in Chief  
Andreas J. Bäuml  
University of California, Davis

ISSN: 1098-5522

**Key Stats**

> 1.2M Downloads

> 46K Citations

JIF: 3.160

**Journal of Bacteriology® (JB)**  
molecular mechanisms of fundamental processes in bacteria, archaea and their viruses, their interactions with each other, their hosts, and their environments

Editor in Chief  
Thomas J. Silhavy  
Princeton University

ISSN: 1098-5522

**Key Stats**

> 2.4M Downloads

> 64K Citations

JIF: 3.234

**Journal of Clinical Microbiology® (JCM)**  
laboratory diagnosis of human and animal infections, management of infectious diseases and the epidemiology of infections

Editor in Chief  
Alexander J. McAdam  
Boston Children's Hospital and Harvard Medical School

ISSN: 1098-660X

**Key Stats**

> 2.5M Downloads

> 52K Citations

JIF: 4.959

**Journal of Virology® (JVI)**  
viruses of animals, archaea, bacteria, fungi, plants, and protozoa, including viral structure and assembly, genome replication, regulation of gene expression, genetic diversity and evolution, virus-cell interactions, cellular responses to infection, transformation, and oncogenesis, gene delivery, viral pathogenesis and immunity, vaccines, and antiviral agents

Editor in Chief  
Rozanne M. Sandri-Goldin  
University of California, Irvine

ISSN: 1098-5514

**Key Stats**

> 2.1M Downloads

> 88K Citations

JIF: 4.324

**Journal of Microbiology & Biology Education® (JMBE)**  
online education journal that fosters scholarly teaching and provides readily adoptable resources in biology education addressing such topics as good pedagogy and design, student interest and motivation, recruitment and retention, citizen science, and institutional transformation

Editor in Chief  
Samantha L. Elliott  
St. Mary's College of Maryland

ISSN: 1935-7885

**Key Stats**

> 72K Downloads

**mBio®**  
cutting-edge research across the entire breadth of the microbial sciences, including symbiosis, pathogenesis, energy acquisition and conversion, climate change, geologic change, food and drug production, and animal behavioral change

Editor in Chief  
Arturo Casadevall  
Johns Hopkins Bloomberg School of Public Health

ISSN: 2150-7511

**Key Stats**

> 649K Downloads

> 16K Citations

JIF: 6.747

**Molecular and Cellular Biology® (MCB)**  
fundamental discoveries in eukaryotic cellular morphology and function, genome organization, regulation of gene expression, morphogenesis, molecular metabolism, cellular trafficking and signal transduction, including host responses to microbes in chronic disease and conditions

Editor in Chief  
Peter Tontonoz  
University of California, Los Angeles

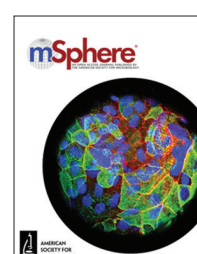

ISSN: 1098-5549

**Key Stats**

> 1.1M Downloads

> 53K Citations

JIF: 3.735

**mSphere®**  
fundamental discoveries in fields within pan-microbial sciences, including bacteriology, virology, mycology, parasitology, microbial ecology, antimicrobial agents, microbiome, immunology, and vaccines

Editor in Chief  
Michael Imperiale  
University of Michigan Medical School

ISSN: 2379-5042

**Key Stats**

> 134K Downloads

> 1.5K Citations

JIF: 4.447

**mSystems®**  
discoveries from applying high-throughput technologies to analysis of metabolic and regulatory systems of single cells and microbial communities, including studies of microbiome, genomics, metagenomics, transcriptomics, metabolomics, proteomics, glycomics, bioinformatics, and computational microbiology

Editor in Chief  
Jack A. Gilbert  
University of Chicago

ISSN: 2379-5077

**Key Stats**

> 115K Downloads

> 1K Citations

JIF: 6.519

## Data Journal

**Microbiology Resource Announcements®**  
short reports announcing the availability of any microbiological resource deposited in a repository available to the community

Editor in Chief  
Irene L. G. Newton  
Indiana University, Bloomington

ISSN: 2576-098X

**Key Stats**

> 293K Downloads

## Review Journals

**Clinical Microbiology Reviews®**  
balanced, thought-provoking overviews of the latest developments in clinical microbiology and immunology, including perspectives on controversial issues

Editor in Chief  
Jo-Anne H. Young  
University of Minnesota

ISSN: 1098-5522

**Key Stats**

> 586K Downloads

> 19K Citations

JIF: 17.750

**EcoSal Plus®**  
body of expert reviews covering virtually all aspects of *E. coli*, *Salmonella*, and other members of the family *Enterobacteriaceae* and their use as model microbes for biological explorations

Editor in Chief  
Susan Lovett  
Brandeis University

ISSN: 2324-6200

**Key Stats**

> 21K Downloads

**Microbiology and Molecular Biology Reviews®**  
overview of the latest developments in microbiology, immunology, and molecular and cellular biology, particularly the significance and the interrelationships of bacteria, viruses, parasites, fungi, and higher eukaryotes

Editor in Chief  
Michael J. Buchmeier  
University of California

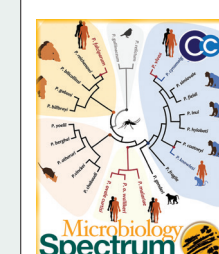

ISSN: 1098-5557

**Key Stats**

> 415K Downloads

> 11K Citations

JIF: 15.255

**Microbiology Spectrum®**  
commissioned interrelated review articles covering the breadth of the microbial sciences: Archaea; food microbiology; bacterial genetics; cell biology and physiology; clinical microbiology; environmental microbiology and ecology; eukaryotic microbes; genomics, computational, and synthetic microbiology; immunology; pathogenesis, and virology

Editor in Chief  
Michael Sadowsky  
University of Minnesota

ISSN: 1098-5522

**Key Stats**

> 141K Downloads

> 2K Citations

JIF: 4.218
